

Calibration Order Form

Standard Imaging offers calibrations from the Accredited Dosimetry Calibration Laboratory (ADCL). Only one purchase order is needed to cover calibrations, shipping/handling and service. All Standard Imaging instruments are tested and examined prior to calibration. If service is required, we'll call you for your approval prior to the repair.

To expedite your order, simply ...

1. Fill out the Calibration Order Form, and
2. Send your equipment, purchase order and Calibration Order Form to Standard Imaging. *We'll take care of the rest of the process for you!*

Electrometer Calibration

(All Makes and Models)

Initial set-up and 1 scale calibration is \$175.
Each additional calibrated scale is \$75 each.

Well Chamber Calibration

When returning your well chamber for calibration, include your source holders for the sources to be calibrated. Your specific source holders must be used by the ADCL for the calibrations.

HDR Iridium: Initial set-up and calibration for HDR Iridium in the HDR 1000 Plus or the IVB 1000 is \$650. Each additional LDR source calibration is \$250.

LDR Sources: Initial set up and calibration of one LDR source in the HDR 1000 Plus or the IVB 1000 is \$450. Each additional LDR source calibration is \$250.
